NOTE

The need for a comprehensive index to the contents of the Mississippi Valley Historical Review has long been obvious to workers in the field of American history. At the annual meeting of the Association, held in Vincennes in April, 1929, the preparation of an index to the first fifteen volumes of the Review was formally authorized by the Executive Committee of the Association. Since the indexes of the individual volumes of the Review were not analytical, they could not be used as the basis for the present compilation.

Users of this *Index* will, perhaps, be aided by the following explanation: book titles are indicated by italics, articles by quotation marks. Under his personal entry, the author's name is given in full, his works in abbreviated form. So also, titles of books and articles, as entries, are complete, the author's given name being abbreviated. Accepted abbreviations have been employed, e.g., ed. (editor), comp. (compiler), revs. (reviews), revd. (reviewed), biog. (biography), etc. The separate volumes of a work reviewed are given within parentheses in Roman, or, in the case of certain periodicals, in Arabic to denote years. Other figures refer: Roman to volume, and Arabic, to page of the Review. Foreign names are to be found under the letter where authorities list them, with cross-references to variants. In matters of form, the *Manual of Style* of the University of Chicago Press has been followed.

In index-making, were it not for one's confreres, the result would be a sorry affair. To Dr. M. M. Quaife's kindly editorial supervision is due appreciation for escape from many tactical blunders; to Miss Florence Emery, gratitude for hours spent in proof-reading; and last, but very important, to Mr. Edward F. Misak and The Torch Press, we offer thanks for their very high grade of workmanship.
